

## YOUR SUSTAINABILITY PARTNER

Versatile multi-resin compatibilization in wide range of applications for virgin materials, post-consumer and industrial plastic recycling streams

### PERFORMANCE

- Superior Mechanical Properties
- Proven Packaging Durability
- High Impact Resistance
- Multi-resin, Virgin and Recycled Streams Compatibility

### BRANDING

- Sustainability Appeal
- Lower CO2 Emissions
- Packaging Aesthetics
- Helping You and Your Customer Achieve Sustainability Commitments

### VALUE

- Cost-Saving Formulation
- Enables Circular Economy
- Raw Material Complexity Reduction
- Enhanced Process Efficiency

## About Kraton Corporation

Kraton is a pioneer and leading global producer of styrenic block copolymers (SBCs) and biobased chemicals with employees and manufacturing sites worldwide and over 700 product offerings. Kraton has an expansive customer base in a diverse range of end-use markets in numerous countries globally. Our global footprint, reliable supply, extensive expertise and integrated portfolio of high-quality products enable our customers to push the boundaries of performance to power the future of innovation. We are committed to providing the superior product development, exceptional technical service, sustainable solutions and reliable quality supply that gives you the innovation edge.
