

Kraton Health, Safety, Environmental and Security Policy

Kraton Corporation, specialty chemical company, and its subsidiaries (Kraton), will conduct business in a manner that promotes a safe, secure and healthful workplace for our employees and contractors, protects the environment, upholds product stewardship & safety of our products, and ensures that we will continue to be a valued member of the communities in which we operate and a valued supplier to our customers.

We believe that Health, Safety, Environmental and Security (HSE&S) performance is a primary measure of our company's success. We are committed to being an industry leader in HSE&S performance through the following guiding principles:

- We are compliant, respectful and ethical; we act with integrity and we expect the same from our customers and suppliers.
- We design and operate our sites and processes in a manner that ensures the safety and security of our employees, contractors, environment and the communities where Kraton facilities are located.
- We support our customers and suppliers to help ensure that Kraton products and raw materials are handled, transported, and processed in a safe, secure and environmentally responsible manner.
- We communicate openly and honestly with our stakeholders the hazards and risks associated with our products and operations and we regularly report progress on our HSE&S and sustainability performance.
- We focus on good corporate citizenship, giving due consideration to sustainable use of resources, reduction of emissions and environmental impacts, and improved product safety during all stages of our product life cycle.
- We adhere to the Responsible Care guiding principles and continually improve our HSE&S management systems to enhance our performance.
- We set goals and objectives that demonstrate our core values of safety & integrity.

Kevin M. Fogarty

President and Chief Executive Officer

Chris Tagoe

Director, Global Health, Safety,
Environment and Security
